

Nihon Micro Coating Co., Ltd

March 14, 2011

Dear Valued Customers,

Re: Influence of the Earthquake and Tsunami

With regards to the effect of Japan's Northeastern Coastal Earthquake, I sincerely express my sympathy to everyone and their families who are affected by the earthquake which occurred on March 11, 2011

For our personnel there were no casualties or injuries to our employees caused by this earthquake. The domestic business conditions are as follows.

Akishima Headquarters (Akishima City, Tokyo):

Damage on buildings and equipment has not occurred, we have resumed normal activities.

Yamanashi Plant (Hokuto City, Yamanashi Prefecture):

Heavy damage on buildings and equipment has not occurred, and we are preparing for the resumption of business activities including the operation of production line is scheduled to start normal operation on March 15.

Currently, Tokyo Electric Power has implemented rolling blackout, therefore during this period of time we may experience temporary stoppage of our operations.

Thank you for your understanding.

Sincerely,

Jun Watanabe  
President & CEO
